

Over 7 decades
of dedicated service
to the earthmoving
and mining industry

شركة جاك رايك الرشيد المحدودة
Jac Rijk Al-Rushaid Co. Ltd.

'It is the goal of Jac Rijk Al-Rushaid to develop and enable new opportunities for the economy of Saudi Arabia'

To secure and expand its international economic position, the Kingdom of Saudi Arabia is faced with the challenge to diversify its economy and develop its unexploited resources. Geological surveys and mineral exploration have revealed that, in addition to vast oil reserves, the Kingdom possesses wealthy deposits of minerals, including bauxite, gold, copper and non-metallic minerals. We applaud the clear vision of the government of the Custodian of the Two Holy Mosques, that exploitation of mineral resources is crucial, not only for trade on the international markets, but also for the foun-

dation of a strong mineral based national industry.

Saudi Arabia has set ambitious goals for development in the mining sector, relying on joint ventures buying in foreign know-how, equipment and consultancy. It is in this light, that Jac Rijk and Al-Rushaid Group found each other to be valuable and trustworthy partners. It is the goal of our company Jac Rijk Al-Rushaid Limited to develop and enable new opportunities for the Saudi economy, based on Jac Rijk's international experience in mining and major earthmoving projects and the expertise and network of the Saudian Al-Rushaid Group.

Together we facilitate expertise, equipment and process management, as well as education and training programs for the future generations of the Kingdom of Saudi Arabia.

Three decades of commitment to excellence

A sincere belief in the benefits of partnership lies at the heart of Al-Rushaid Group, which has grown through the development of unique and specialist joint ventures with emphasis on technology transfer both locally and internationally. As well as acquiring and supervising key industrial and business projects that contribute to the economic life of the Kingdom of Saudi Arabia. Al-Rushaid is actively pursuing joint ventures with leading companies all around the world.

The joint venture with Jac Rijk is not only based on a valuable technology transfer, but also on mutual recognition of core values and goals. Both our organizations are successful as the result of our unceasing commitment to excellence and to a dedicated staff who are determined to provide services that meet or exceed the expectations of our clients.

Abdullah Al-Rushaid
Chairman & Chief Executive Officer Al-Rushaid Group

Three generations of dedication to earthmoving

In 2008, family owned business Jac Rijk celebrated it's 75 year anniversary. A milestone, that made us proudly look back at 7 decades of dedicated service to the world of earthmoving and mining, and the international expansion of a company that, despite its growth, still holds the same core values. Efficiency as well as safety in a harmonious working environment are spear points in our ambition as a company to meet our customer's needs. We achieve this through the

high involvement of our valued teams, state of the art technology and machinery, and a solid financial foundation. Today, the third generation Rijk guides the company group into a promising future. A future we want to take responsibility in. By reshaping the earth in a literal sense, but more so in the support of local goals and initiatives, and co-creating, together with our global partners, a sustainable and livable society worldwide.

Mark Rijk
Chairman & Chief Executive Officer Jac Rijk BV

Introducing: Jac Rijk Group

Being there since the beginning, Jac Rijk stood at the cradle of the large scale earthmoving industry as we know it today. The company professionalized along with the industry itself, as projects became larger and operations more complex and more-demanding in areas of, among others, efficiency, infrastructure, safety and in recent years sustainability. Continuous investment in state of the art technology and materiel as well as human capital, brought the company to the point where we are confident to say that there is no natural, geological or technical challenge that cannot be overcome. Our specialist teams on their turn invest in the education of local personnel and knowledge of the country, discipline and task specific requirements. All to ensure you that people and equipment spreads are fully optimized to the operation.

After three generations, Jac Rijk has grown into an international player with many mining, civil and infrastructural key national projects to its name. It is fair to say, that the companies within the group founded roads, railways and waterways, as well as mined, moved and excavated on almost every continent.

‘Jac Rijk is an international player with many mining, civil and infrastructural key national projects to its name.’

JAC RIJK GROUP:

Jac Rijk BV

- MINING
- CIVIL WORKS
- SITE PREPARATION
- INFRASTRUCTURE
- NATURE DEVELOPMENT

Offices in:

- KINGDOM OF SAUDI ARABIA
- THE NETHERLANDS
- GERMANY
- BELGIUM
- SURINAME
- DEMOCRATIC REPUBLIC OF CONGO

ZTZ (Zwaar Transport Zeeland)

Exceptional transport and shipment of earthmoving equipment machines.

Jac Rijk operates under set quality and safety norms, and is certified under ISO 9001:2000 and VCA 5.1/2008 **

Internationally, we operate according to our own Health, Safety and Quality Control System (HSEC).

This professional management system guarantees we deliver reliable craftsmanship, first class safety and high quality.

Based on these merits, Jac Rijk Al-Rushaid believes to be a valuable partner to the upcoming mining sector in the Kingdom of Saudi Arabia.

Introducing: Jac Rijk Al-Rushaid Co. Ltd.

On the, in general, remote areas where minerals are excavated, earthmoving work for opencast mining and quarrying requires specific knowledge, know-how and assets. Jac Rijk Al-Rushaid can build not only on many years of expertise in large-scale earthmoving but also on mining experience in almost any corner of the world. Jac Rijk Al-Rushaid is a more than reliable and experienced partner, fully equipped to plan, prepare and execute any part of the mining operation; from the installation of the necessary infrastructure, the removal of top layers, the actual mining, the disposal of waste, to the final reinstatement of fertile soils. Our specialist teams deliver the total knowhow, required equipment, technical support as well as extensive training for personnel.

'Jac Rijk Al-Rushaid is fully equipped to plan, prepare and execute any part of your mining operation'

IN THE AREA OF MINING JAC RIJK AL- RUSHAID SPECIALIZED IN:

- MINE DESIGN
- GREEN- AND BROWNFIELD MINING
- CONSTRUCTION OF HAULROADS
- CONSTRUCTION OF TAILING PONDS
- DEWATERING
- BUSH CLEARING
- DRILLING AND BLASTING
- HEAVY EARTHMOVING LIKE EXCAVATION OF OVER-BURDEN FOR DEEPSEATED MINERALS AND RUN OF MINE
- MASS-TRANSPORT OF MINERALS
- PROGRESSIVE REHABILITATION WORKS
- TOTAL MINING CONCEPTS
- GENERAL MINING SERVICES

Reference projects:

Surinam:
Lelydorp 1 Bauxite Mine (Client: BHP Billiton). Removal of overburden (deep-seated bauxite at 25 meters depth in swamp areas)

Surinam: Several Total Bauxite Mining Concepts (deforestation, overburden removal, drilling and blasting, transport of bauxite to refinery)

DRC: Construction of tailing ponds (copper) and copper mining

Germany Hambach: Mining and construction of in-pit roads (open pit mining > 100 meters depth)

Guinee: Nimba Iron Ore Project: Construction of roads and general mining services

'Quick, solid and efficient site preparation demands for a reliable and experienced partner'

Site preparation is critical for a successful and prosperous progress of any constructional operation, either it concerning remote mining sites, large scale industrial zones, commercial areas or luxury residential parks. Quick, solid and efficient site preparation demands for a reliable and experienced partner that understands the specific needs of both you and your project and knows how to meet or exceed them, utilizing the newest available knowledge, technology and equipment. Jac Rijk Al-Rushaid can build on many years of site preparation experience around the globe, also in remote areas without any existing infrastructural resources. Being independent of external resources in terms of equipment, know-how and personnel, the optimization of both process and planning will not be an idle promise.

In the area of site preparation Jac Rijk Al-Rushaid specializes in:

- COMPANY / INDUSTRIAL GROUNDS
- NEW HOUSING ESTATES
- INSTALLATION OR REMOVAL OF PRE-LOADS

Responsible interaction with nature and the environment we live in, has become more and more important in our society today. In the field of landscape (re)design, nature construction and development , as well as soil sanitation of old mines and industrial zones, we contribute with professional sanitation and excavation activities.

'The Dutch expertise in the construction of dykes, quays and canals is enlisted by nations worldwide'

Jac Rijk's homeland, The Netherlands, lies for over %50 under sea level. This small country in the Rhine-Meuse-Schelde delta has a coast line of 523 km, of which 353 km North Sea coast. To protect itself from being flooded by river and/or sea water, the country has built up impressive experience and know-how in the construction of dykes, quays and canals. Its leading water management expertise is still every day enlisted by governments and companies worldwide. Alongside, more than 7 decades ago Jac Rijk started their activities with sea protection and marine works. As a specialist in earthmoving Jac Rijk laid the foundation of innovative, world famous projects such as 'the Deltaworks' and the work island 'Neeltje Jans'. Our expertise in civil engineering both home and abroad guarantees a professional and efficient start of any marine project.

In the area of marine works Jac Rijk Al-Rushaid specializes in:

- SEA PROTECTION WORKS like construction of dykes
- CONSTRUCTION OF QUAYS, locks and breakwater projects
- CONSTRUCTION OF CANALS , port areas, deepening and widening of waterways

Reference projects:

Lagos, Nigeria:

construction of Eko Atlantic site preparation and construction of breakwaters

Zeeland, The Netherlands:

upgrading and strengthening of dykes (Zwakke Schakels Project)

Xanten, Germany:

construction of dykes and river floodwater protection works

Zeeland, The Netherlands:

widening of Canal of Zuid Beverland

'We aim to improve quality of life in the communities we work in, without any form of discrimination'

At Jac Rijk, we made it our aim to support our immediate (work) environment in becoming a livable and fertile community. Our ideology is to improve quality of life in the communities we work in without any form of discrimination of age, race, color and/or religion. Over the

past years, we have started and supported healthcare projects and educational projects, as well as helped small local companies. And of course, we supported many youth projects, as the youth holds the future of every nation.

Reference projects

Healthcare:
malaria and dengue prevention

Education:
maintenance of schools and supply of materials

Youth Support: sports projects

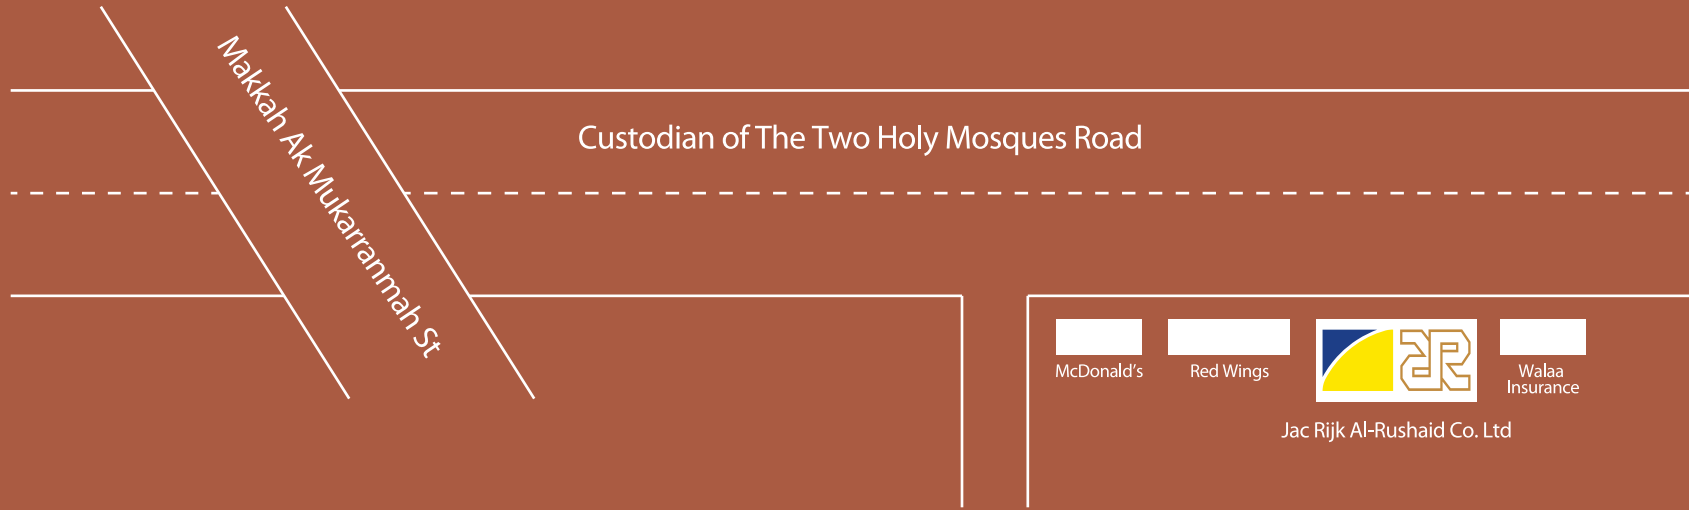

Small scale business support:
small loans and opportunity to supply our projects

At Jac Rijk Al-Rushaid we believe people are indeed our main asset. It is our ambition to inspire personnel to develop themselves in a safe and harmonious work environment in which accidents are actively avoided. Jac Rijk Al-Rushaid has a zero harm philosophy and we are proud to state that Jac Rijk BV has an excellent track record of over 5 years without Lost Time Injuries. In order to contribute to the diversification of the Saudi economy, Jac Rijk Al-Rushaid has furthermore identified the recruitment and progressive employment of Saudi nationals as an essential part of its corporate strategy. Jac Rijk Al-Rushaid has established several technological and management training programs for young Saudi professionals in the areas of mining and site preparation.

It is one of many ways in which we can and will contribute to a prosperous future for the economy and next generation of the Kingdom of Saudi Arabia.

‘The recruitment and employment of Saudi nationals is as an essential part of our corporate strategy’
